**Building** tomorrow's backyard dreams, today

At Rising Sun Pools  
we make  
your backyard dreams  
come true

More pools, more awards and  
more happy customers  
makes Rising Sun Pools  
your best choice!

# Why choose Rising Sun Pools and Spas?

**Building a pool can seem overwhelming to most homeowners. You ask:**

- "How much will it cost?"
- "Which builder should I choose?"
- "How long will it take?"
- "Where do we begin?"

At Rising Sun Pools we understand these concerns and have designed our business to totally guarantee your satisfaction. Here's how.

**First** and most important, consider we've made the dream of pool ownership a reality for more than 6,000 Triangle families over the past 40+ years. Nobody has more customers, more experience or more expertise. There's nothing we haven't encountered and solved that could otherwise stand in the way of your complete satisfaction. This track record is your greatest assurance that your pool will be the dream you've always envisioned.

**Second** All our employees are full-time, experienced pool building professionals. No temps. No seasonal employees. No subcontractors. Our construction team has over 120 years of pool building experience...the most in the area.

**Third** We provide warranties, up to a lifetime on the pool structure of your vinyl, concrete or fiberglass pool. And thanks to our company's size and longevity in the marketplace, we've also negotiated extended equipment warranties from our manufacturers...that are 3 times longer than the competition.

**Fourth** We're more than a builder. We've designed our business to be your lifetime resource for the products and services that will keep your pool in tip-top shape with the least investment in time or money. Dedicated service employees provide quick turnaround on service requests from our fleet of fully-stocked vehicles.

**Fifth** We simply build a better pool with more standard features, commercial-grade filtration systems and much more.

**Sixth** We operate three conveniently located retail stores with all the supplies and accessories you will ever want or need... and they're staffed with trained and experienced pool professionals that are here to serve you, year-round. You will be able to find everything you need at one of our multiple stores stocked with all the supplies, toys, accessories and chemicals needed to complete your pool experience.

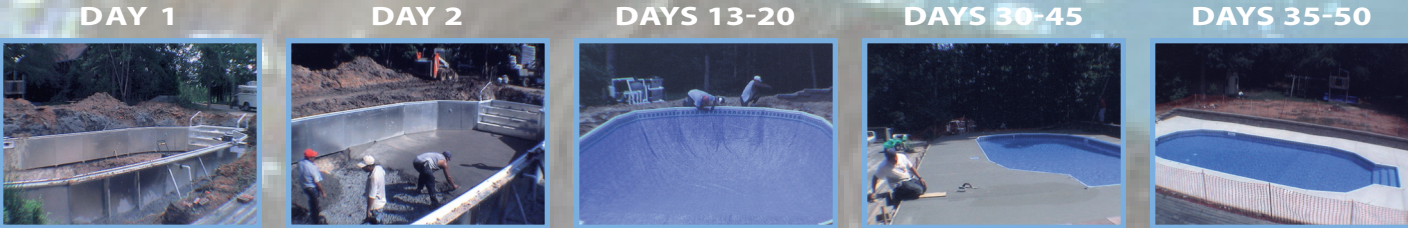

In short, at Rising Sun Pools, we make backyard dreams come true everyday, on time, on budget while exceeding your highest expectations for quality and service.

# CONSTRUCTION STAGES OF YOUR RISING SUN POOL

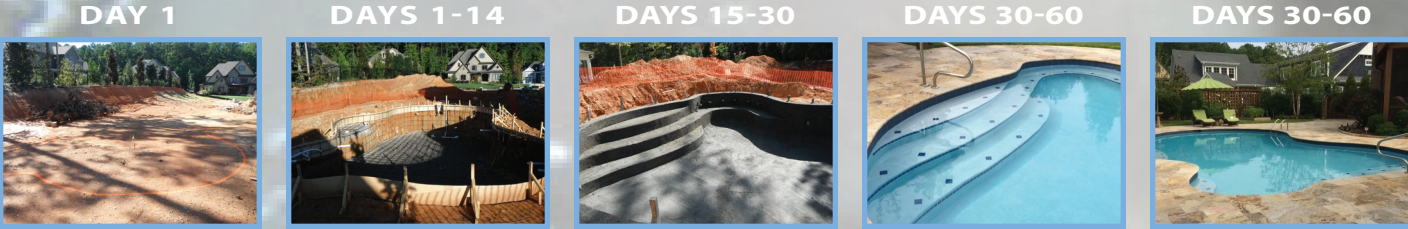

## VINYL LINER

## FIBERGLASS

## CONCRETE

**More standard features and  
top grade options so your pool  
is ready whenever you are**

### Automatic Pool Cleaner

We include a Polaris or Hayward pool cleaner. These devices vacuum your pool automatically...so you don't have to.

### Automatic Chlorine Feeder

Put up to 9 pounds of slow dissolving chlorine tablets or sticks into the feeder and regulate the amount released with an easy to use dial.

### Overflow Line

Drains excess water from heavy rains. And to keep it fun and beautiful...

### Dual Timer Panel Box

Wireless remote for pool light, freeze protection and timers for main pump and automatic cleaning system.

### 500 Watt Underwater Light

For evening swims or nighttime ambiance when entertaining.

As you can see, Rising Sun Pools offers a host of quality, convenient, aesthetic and time-saving maintenance devices as standard equipment with every pool...features that you'll pay extra for with other builders.

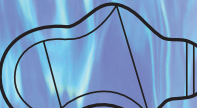

Create an  
inviting escape  
with the  
beauty of a  
Rising Sun Pool

## Less maintenance more value

**Rising Sun pools are the fastest growing type of in-ground pools in the Triangle area. For good reasons.**

**Structural integrity.** The strength of concrete and the durability of 14 gauge steel walls (33% stronger than the competition) on our vinyl pools and multiple layers of thickness with 12 inches of flex strength in our fiberglass shells.

**Speed of installation.** Most Rising Sun Pools can be started, and the entire construction process finished in as little as 3-4 weeks; this can be a little longer with concrete pool, less with fiberglass pools.

**Wide selection of shapes and sizes** can satisfy the design tastes of the most discerning buyers. There are unlimited custom options available, so if you can dream it, we can build it!

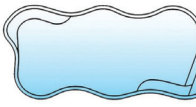

**Less maintenance** The chemically treated liners and fiberglass gel coat can be less susceptible to staining than a concrete pool due to imbalances in pool chemicals. Proper maintenance is key with any type of pool. And the liners are up to 40% thicker than our competitors, at no extra charge.

**Best value for the money** Vinyl lined pools are nearly half the price of concrete pools and 30-40% less than fiberglass pools. Concrete pools are cost effective in the long haul but the initial construction cost can be costly.

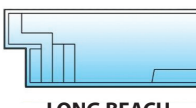

**Lifetime warranty on the steel walls and a 35-year warranty on our fiberglass shell line** in addition to the best manufacturer and builders warranties in the area.

Rising Sun vinyl pools are made using prefabricated steel frames that are assembled, connected and reinforced with concrete and vermiculite finish is applied to the pool bottom. After the liner is installed, the pool is ready for filling. Rising Sun fiberglass pools also come pre manufactured and ready to install; swimming can occur in 1 day. Rising Sun concrete pools are custom made and can take 60-90 days in some cases to complete.

# Tomorrow's hydraulic and filtration system

## Efficient, balanced, technologically advanced

**A key to low cost, low maintenance pool enjoyment is proper hydraulic and filtration system design.** It's an engineering balancing act, using commercial-grade filtration systems to provide the best combination of energy efficiency and water management effectiveness.

**Next, the pump...** We offer the best Hayward pumps on the market. We size it right for optimum efficiency and back it with extended warranties offered exclusively to Rising Sun Pools' customers.

At Rising Sun, we design unique features into your pool's mechanical systems to strike this optimum balance.

### First, maintenance and energy saving plumbing fixtures...

2" pipe for more efficient water flow, individual cut-off valves for greater control of your pool, 2 skimmers for cleaner, clearer pool water and double main drains.

**Next, the filter...** We recommend easy to use sand filters with one little twist-instead of sand, we substitute a superior filtering mineral known as zeolite, which filters particles as small as 3 microns. This means sparkling clear water and longer intervals between filter cleanings.

Together, all achieve the right balance between energy-efficiency, and water management.

## Think owning a pool is a lot of work? Think again!

### Today's advanced technology makes pool ownership easier than ever to maintain and enjoy...

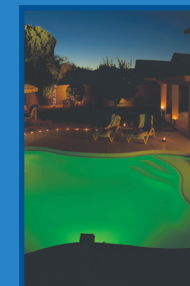

**if it's a Rising Sun Pool.** At Rising Sun Pools, we believe swimming pool ownership should be a pleasure. And, with so many wonderful options to enhance your pool experience, we want you to know about all your choices before you build—so you can decide what best fits your lifestyle.

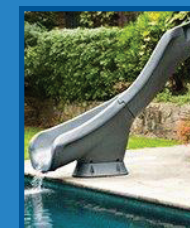

**Heating Options** Heat pump, natural gas, propane and solar extend your swim season 2-3 months. Economical to operate too.

**Aqua Rite® Chlorine Generator** Ultimate convenience. Combination chlorine generator and mineral purifier. Makes chlorine in your pool...automatically while reducing chemicals. Eliminates stinging eyes, damaged hair, bleached out bathing suits.

**Colored Lighting** Choose from a multitude of colors and change the mood of your backyard with the flick of a switch... from deep blue to aqua to pink to green...and various shades in between.

**Pool Slides** Give your pool water park thrills - right in your own backyard! Slides are designed for maximum fun and safety for the entire family - with a super deep flume that safely accommodates children and adults, up to 275 lbs! There are many different shapes, sizes and designs for slides. Ask your sales representative for details.

**Rock Waterfall** The tranquil sounds of streaming waterfall over lifelike rock formations are the perfect surrounding for your new Rising Sun Pool.

**Electronic Wireless Pool Controls** Ultimate automatic control! Come home to a perfectly heated pool or spa. Control your landscape and underwater lights, waterfall, pool cleaner and filtration equipment without lifting a finger.

**Safety Cover** Manual and/or automatic cover. Protects small children and pets when the pool is not in use. Also keeps debris from falling into the pool. Choose between a manual or automatic pool cover.

**Automatic Pool Cover** Provides safety and peace of mind. Dirt and debris land on the cover, not in your pool. Covering your pool eliminates evaporation. Heat and chemical loss are reduced up to 70%.

**Diving Board** There are as variety of different styles and colors of diving boards available. Ask your sales representative for details.

### May we work up a no-obligation design for you?

If you're like a lot of our customers, you've been thinking about a swimming pool for quite some time. Let us bring you closer to your dreams. Give us a call at **919-851-9700**. We'll come out and survey your backyard, provide you with helpful information about the pool buying and building process, answer your questions and draw up a plan and estimate...so you'll know all your options. It's that easy.
