

USE YOUR NOODLE

UPGRADE YOUR POOL PUMP AND SAVE!

You can receive a \$300 rebate from Duke Energy.

Upgrade to an ENERGY STAR® certified variable-speed pool pump and save up to \$450 in annual energy costs.* These ultra-efficient pool pumps use less energy, make less noise and filter water more thoroughly.

To apply for your rebate, go to smartsaverincentives.com

Application must be submitted no later than 60 days after your installation and include a copy of your invoice.

See reverse side for details. *www.energystar.gov/sites/default/files/tools/ES_PoolPumps_FactSheet_2021_508.pdf

Purchase and install a variable-speed pool pump and earn a \$300 rebate.

Here's how it works:

Step 1: Purchase a qualifying ENERGY STAR certified variable-speed pool pump.*

Step 2: Apply for your rebate online at **smartsaverincentives.com** within 60 days of installation. Be sure to include a copy of your purchase and installation invoice.

Step 3: Do a cannonball! Your \$300 rebate is on its way.

To learn more, call **866.785.6209**.

Smart \$aver®

*To be eligible, you must be a Duke Energy customer who owns a single-family residence with a new or existing in-ground swimming pool. Variable-speed pump must be for main water filtration of pool.
